Advantages In Every Detail

Introducing the Advantage Series, fine cabinetry that unites beauty and function with rock-solid value. Built for the way we live today, Advantage delivers the styling and quality your home deserves in an affordable cabinet you'll be proud to own.

With Advantage, so many choices await you; thirteen distinctive door styles in a combination of Oak, Maple, Thermafoil, MDF and True Touch. Each species is available in varying depths, and a rich assortment of accessories and finishes. The quality built into our Advantage Series is unmistakable. Best of all, the Legacy Advantage Series is competitively priced to give you a competitive advantage. Which means you get freedom of choice, plus elegant craftsmanship at an unbeatable price. All wrapped up in one magnificent collection of cabinets. Advantage is without a doubt, a line that lives every bit up to its name.

Your choice

Who says more choice means higher cost? Certainly not Advantage! We've opened up a new world of opportunity for today's consumer: We've built a different platform, and a different cabinet. Engineered for efficiency, Advantage is the high-value cabinet you've been waiting for. All the features and choices you expect at a can't-resist price. So whether you're creating a new space or redesigning an existing one, you'll get more design, more quality and more satisfaction when you choose Advantage.

★ Accent Stain Upgrade

SPECIES DESCRIPTIONS

OAK

Oak is noted for its open grain and varying patterns. There is a distinct difference in color between the open and closed grain of the wood. The finished product's character is enhanced by these color variations. Oak is occasionally streaked with black, yellow and green mineral deposits. Its color can range from a white or pink cast to a soft brown.

MAPLE

Maple is a strong, evenly-textured wood with a natural luster. While it is very uniform, you will notice random mineral streaks, worm tracks, or birds-eye patterns. The grain is primarily straight, but can be wavy at times. Maple is a closed-grain wood that sands to a very smooth finish. As it ages, maple will take on a golden hue. Due to the density and hardness of maple, natural expansion and contraction may be more apparent at joints than with softer hardwoods.

THERMAFOIL

Thermafoil doors are produced using a high quality 3/4" MDF "Medium Density Fiberboard". After door preparation, the MDF is wrapped with a durable vinyl like product "Thermafoil", by using a combination of heat and pressure.

TRUE TOUCH

Built from revolutionary alternative materials, True Touch gives you the perfect embossed texture of stained wood. Components are always environmentally safe and low maintenance. Made from engineered wood that is stable and robustly built, these materials completely eliminate the concern of expansion & contraction.

MDF

MDF is made from an engineered wood product with a consistent core and a smooth surface. More durable than solid hardwoods, MDF is more resistant to warping, expansion and contraction than other hardwoods.

5-YEAR WARRANTY, KCMA CERTIFIED

Legacy Cabinets, Inc. warrants its cabinets for a period of 5 years and its drawers and hardware for LIFE against failure or defects for as long as the purchaser owns them and provided they are not removed from the original premises. The warranty covers the repair or replacement of defective parts only. The cost of removal, installation, and any incidental charges is the responsibility of purchaser. Legacy Cabinets, Inc. assumes no

obligation for any consequential damages. This warranty does not cover misuse, abuse, improper storage, neglect, acts of God, exposure to moisture, exposure to extreme temperatures, warped items or improper installation. Additionally, this warranty does not cover wear or deterioration that results from natural aging, including expansion and contraction. Any incidental, consequential, or other damages of any kind or nature are also excluded. This warranty does not cover discoloration such as lightening or darkening due to light exposure; natural or artificial. Age, lighting, and exposure to the elements all have an expected and natural effect on wood and are not considered to be manufacturer's defects that are covered by this warranty. Though we do not anticipate any problem, we are cognizant of the investment you have made in Legacy Cabinets. This warranty agreement is issued for your protection, to assure your peace of mind, and to voice our appreciation for honoring us with your selection of Legacy Cabinets, Inc. products.

We offer a 5 year warranty & we're certified by
the Kitchen Cabinet Manufacturing Association
