Make it your own.

Since all glazed cabinetry is hand finished, no two doors look exactly the same. The hand glazing application differs depending on whether a door is painted or stained.

PAINTED DOOR STYLES WITH GLAZE

When a painted door style is glazed, only the profiles of doors, drawer fronts and large mouldings receive the highlighted hang up, and the remainder of the cabinet is not affected by the glaze color.

STAINED DOOR STYLES WITH GLAZE

When a stained door style is glazed, the technique is different. The glaze is applied over the entire base stain and is then hand wiped, allowing glaze to hang up in the profiles while enriching the color of the entire cabinet.

Not finding the perfect color to fit your project? No problem! We will paint your cabinets any color you desire.

SHARE YOUR COLOR WITH US

Provide a paint name and number from a major paint manufacturer.

SELECT YOUR DOOR STYLE

We will paint your maple, oak or MDF door style in the color you specify and send you a sample for approval. Don't fret that you only receive half a door, we keep the other half to ensure it matches perfectly before it leaves our factory.

ORDER YOUR CABINETS

Send your color approval along with your cabinetry order and we'll take it from there.

Styles, product availability and construction may vary slightly from those shown in this book due to material availability and/or design evolution. Specifications are subject to change without notice. Customer service is available if your design requires verification of product availability and specifications.

Product photography and illustrations have been reproduced as accurately as printing technologies permit. To ensure highest satisfaction, we strongly recommend you view an actual sample for best color, wood grain and finish representation.

Mid Continent Cabinetry® is a certified brand in the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program. The program recognizes companies that demonstrate an ongoing commitment to environmental practices and sustainability.
